**Y**OUR Directors are pleased to submit the 1969 Annual Report of Bowes Company Limited including the consolidated financial statements of the Company and its subsidiary companies for the year ended December 31, 1969.

Consolidated net profit for the year after provisions for income taxes amounted to \$977,143 compared with a net profit of \$921,370 for 1968. This represents \$1.61 per common share in 1969 compared with \$1.52 in 1968. In addition, in 1968 a special non-recurring dividend of \$40,320 was received from an affiliated company. In the opinion of your Directors your company had another excellent year.

Consolidated cash flow from operations amounted to \$1,368,337 in 1969 as compared with \$1,256,935 in 1968. The company's working capital only increased by \$235,459 to \$4,808,737 due to the major capital expenditure programme undertaken in 1969. This programme is nearing completion, and we anticipate that during the current year fixed asset additions will be approximately \$500,000.

Investments in affiliated companies as shown on the balance sheet under the heading of Investments was increased by \$21,415. We are participating in the formation of a new company that will supply and distribute beverage syrups and allied products in the Caribbean Islands. Our company's share of earnings from affiliated companies for the year amounted to \$67,585 and is not included in our statement of consolidated income. Our underlying equity in these companies is \$499,000 and is being carried on the balance sheet at \$123,957.

The common shareholders received a quarterly dividend of 12½¢ per share and an extra dividend of 10¢ per share in 1969, which amounts to 60¢ per common share in comparison to 50¢ per share paid in 1968.

Your Directors express their appreciation to the employees of all the companies for their continued loyalty and efficiency during the year.

The report of the auditors of your Company, Messrs. Clarkson, Gordon & Company on the consolidated statements is respectfully submitted herewith.

## BOWES COMPANY, LIMITED

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

December 31, 1969

1. ACCOUNTS RECEIVABLE AND INVENTORIES

The accounts receivable and inventories of the parent company and certain subsidiary companies have been pledged as security against the bank indebtedness.

2. INVESTMENTS IN AFFILIATED COMPANIES

The company's share of the equity underlying its investment in affiliated companies according to the 1969 audited financial statements is \$499,000 (1968 — \$410,000).

3. FORGIVABLE LOAN

By agreement dated January 9, 1969 the Ontario Development Corporation has undertaken to advance to the company a maximum of \$214,853 by way of an interest-free forgivable loan to assist in the financing of an extension under construction at the company's plant in Colborne, Ontario. Until the loan is forgiven it is secured by a first mortgage on the Colborne lands and premises. At December 31, 1969 \$87,400 had been advanced under the agreement. Provided the company complies with all the terms of the agreement, no interest is payable on the loan and it will be forgiven over a six-year period commencing one year after the final advance of funds.

4. AUTHORIZED CAPITAL

During the year Supplementary Letters Patent were obtained to reduce the authorized preferred share capital from 1,600,793 shares to 1,325,537 shares to reflect redemption of preferred shares in prior years. As a result, the \$275,256 of retained earnings previously designated as capital surplus, as required by statute on the redemption of preferred shares, has now been restored as retained earnings.

5. CONTINGENT LIABILITIES

The companies are contingently liable in the following amounts: letters of credit outstanding \$654,000; guarantees of bank advances to affiliated companies up to \$1,500,000; guarantees of mortgages of approximately \$322,000 on property occupied by affiliated companies.

### AUDITORS' REPORT

*To the Shareholders of*

*Bowes Company, Limited:*

We have examined the consolidated balance sheet of Bowes Company, Limited and its subsidiary companies as at December 31, 1969 and the statements of consolidated income and retained earnings and source and application of funds for the year then ended. Our examination of the financial statements of Bowes Company, Limited and those subsidiaries of which we are the auditors included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances. We have relied on the report of Glendinning, Jarrett, Gould & Co. who have examined the financial statements of a major subsidiary of which they are the auditors and the assets of which represent approximately 25 per cent of consolidated assets.

In our opinion, these consolidated financial statements present fairly the financial position of the companies as at December 31, 1969 and the results of their operations and the source and application of their funds for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.
